

*Is your computer **slow? flaky?***

*Are you plagued by **popups? crashes? lag?***

*Are you concerned about **spam, scams, viruses** and **identity theft** - or been impersonated on IM?*

You CAN prevent all of these problems

ALWAYS USE PROTECTION A Teen's Guide to Safe Computing

The first computer security book especially teens. Learn to protect your computer, your privacy and yourself.

P.S. Yes, it's a great book for adults too - most adults have simpler security needs than teens.
